

Salon waste management

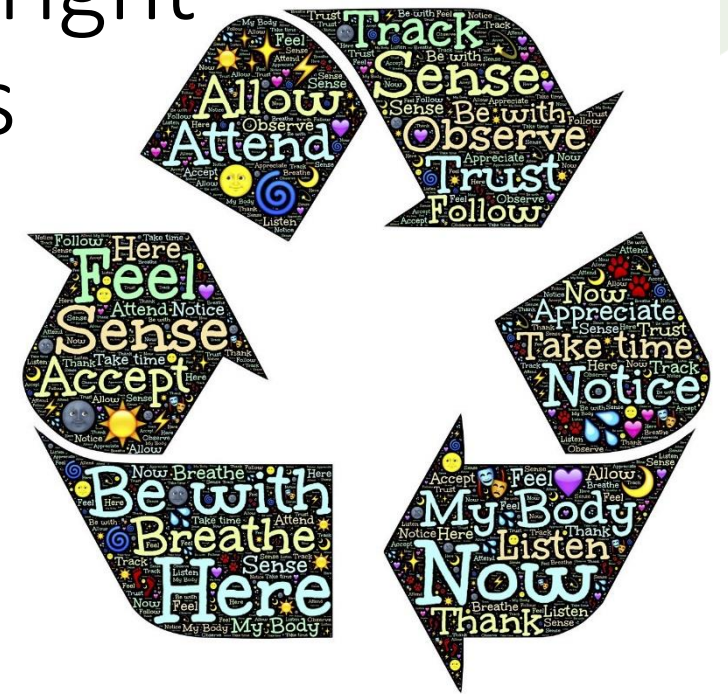

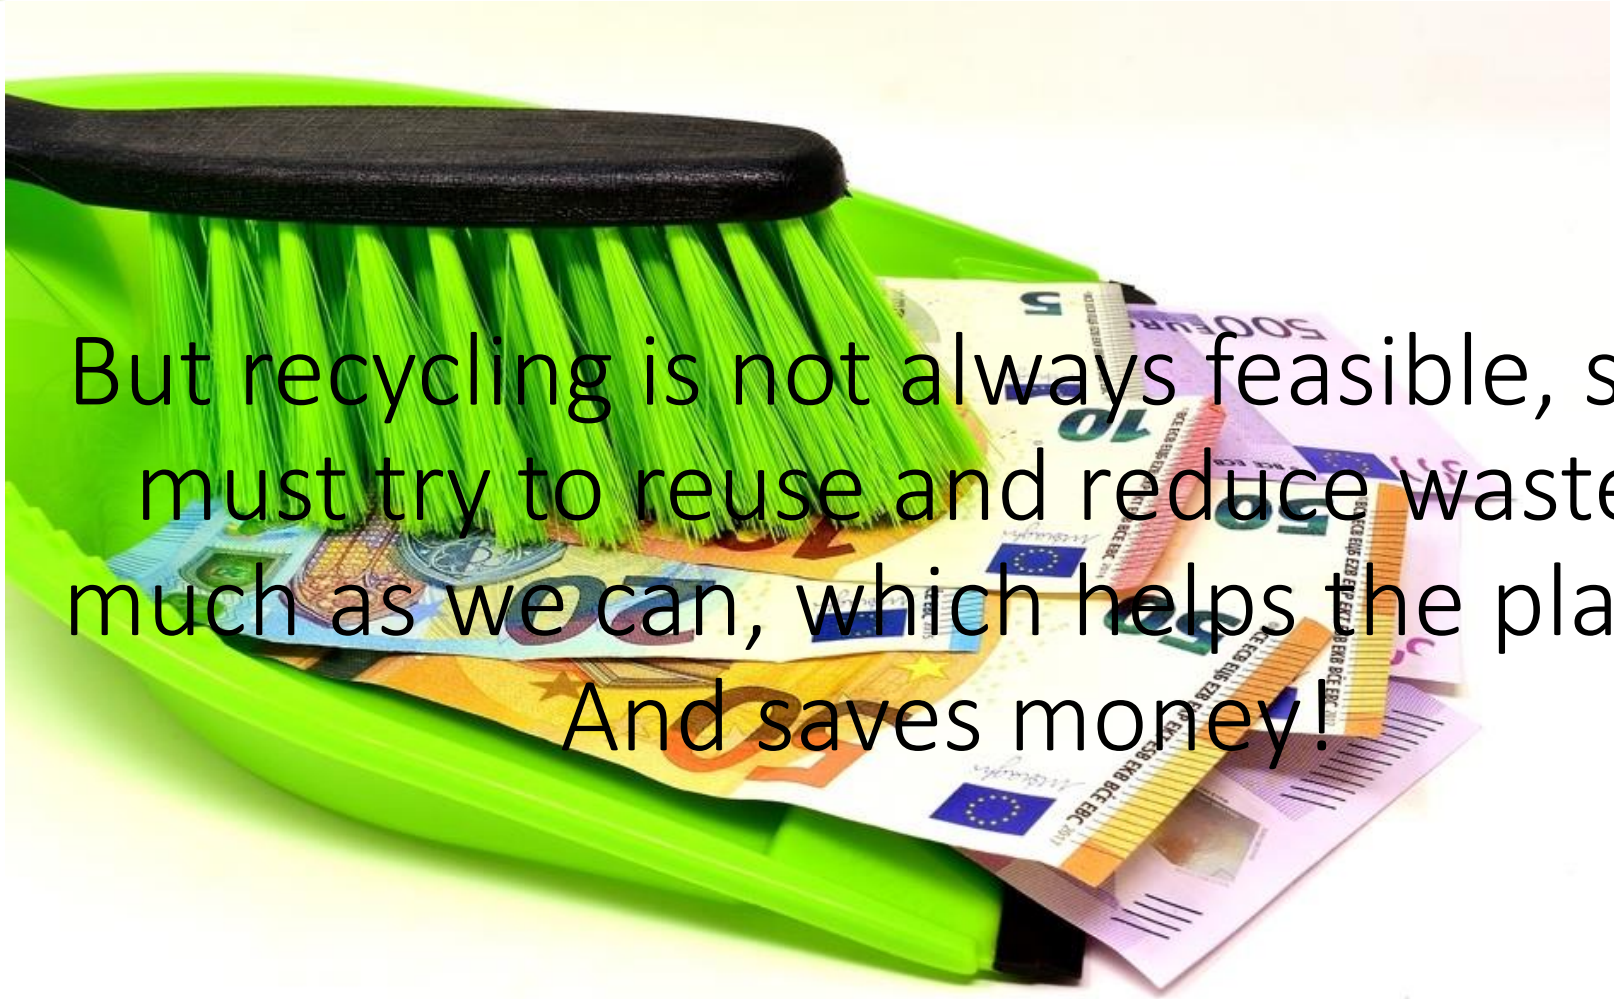

If you are a business, the Duty of Care applies to you.

As a business, you have a duty to ensure that any waste you produce is handled safely and/or recycled.

Much of the waste that salons actually produce is recyclable but it is having the time, convenience and the right information that makes all the difference.

But recycling is not always feasible, so we must try to reuse and reduce waste as much as we can, which helps the planet...
And saves money!

PLASTIC

HAIR

ELECTRICAL ITEMS

COSMETICS...

Visit the stands and check our website
www.greensalon.eu for more information.

THANK YOU FOR YOUR ATTENTION
