

# SPANISH EDUCATIONAL SYSTEM

**Education is a fundamental right in our Constitution and therefore, is responsibility of the Ministry of Education, Culture and Sport .**

**However the 17 autonomous regions have some responsibility for their own education system (including higher education).**

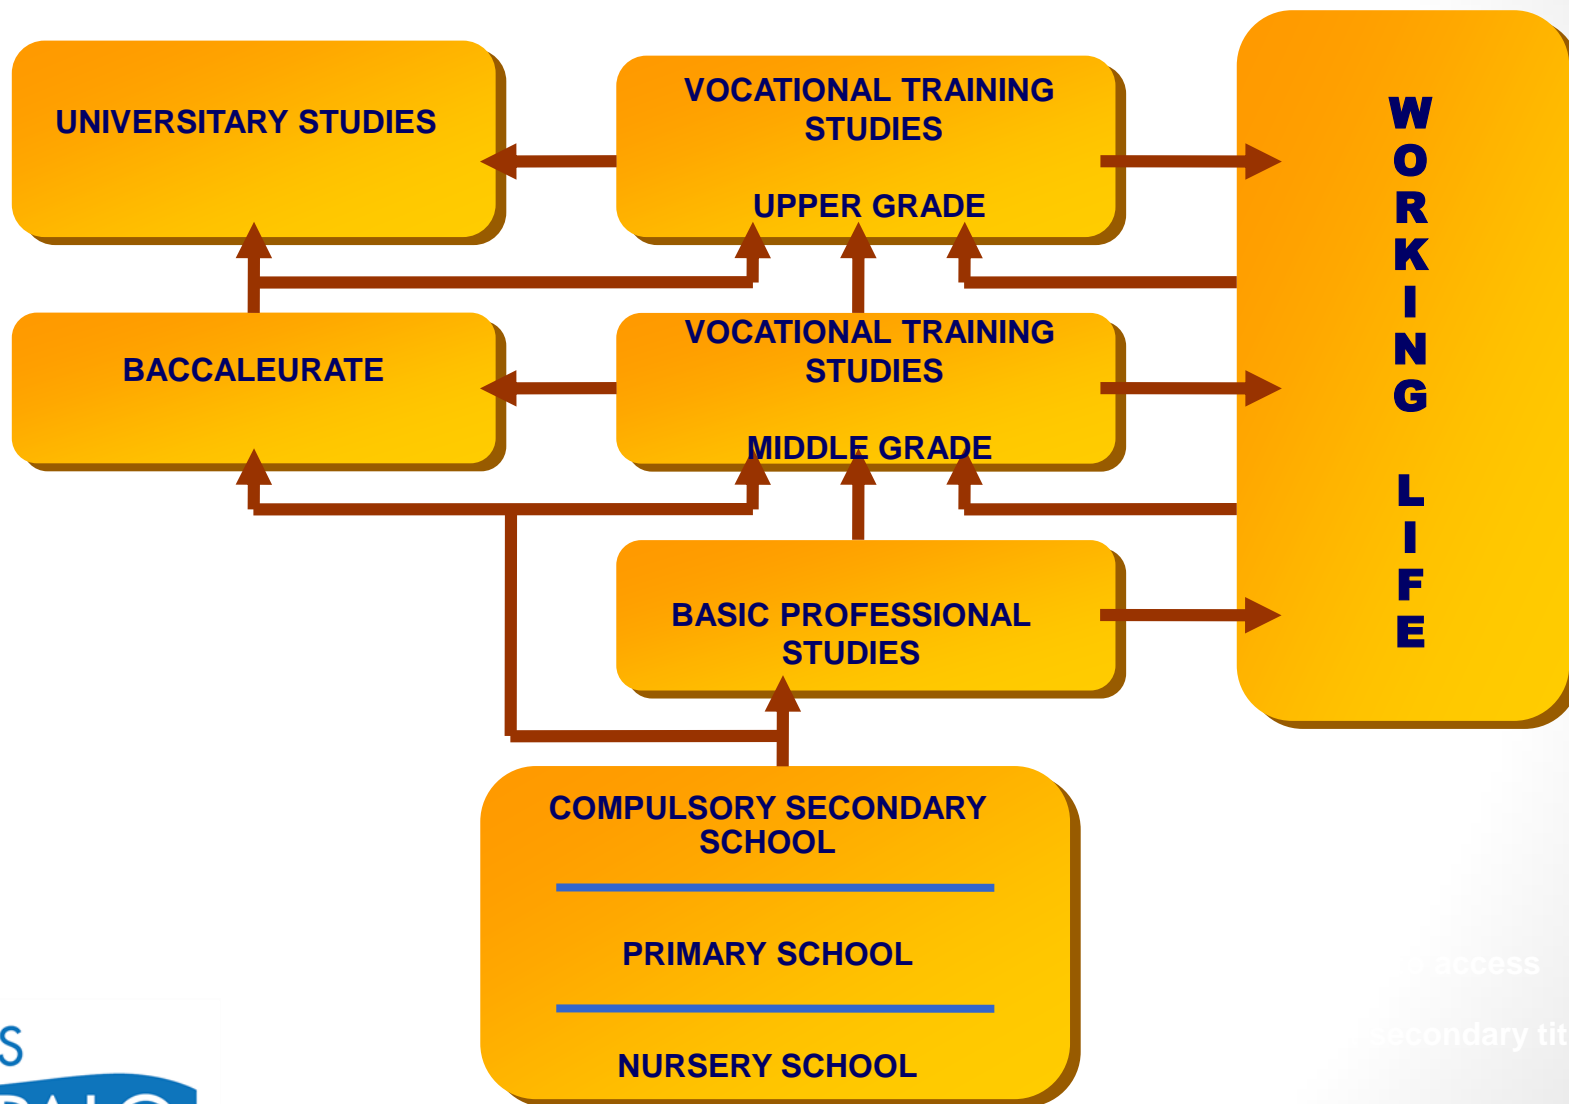

**Spain has state and privately-owned schools.**

**State schools education is free, although in some autonomous regions books and materials must be paid for.**

**Some of the private schools are funded by the state (concertados). Fees in these schools are generally lower than in other private schools.**

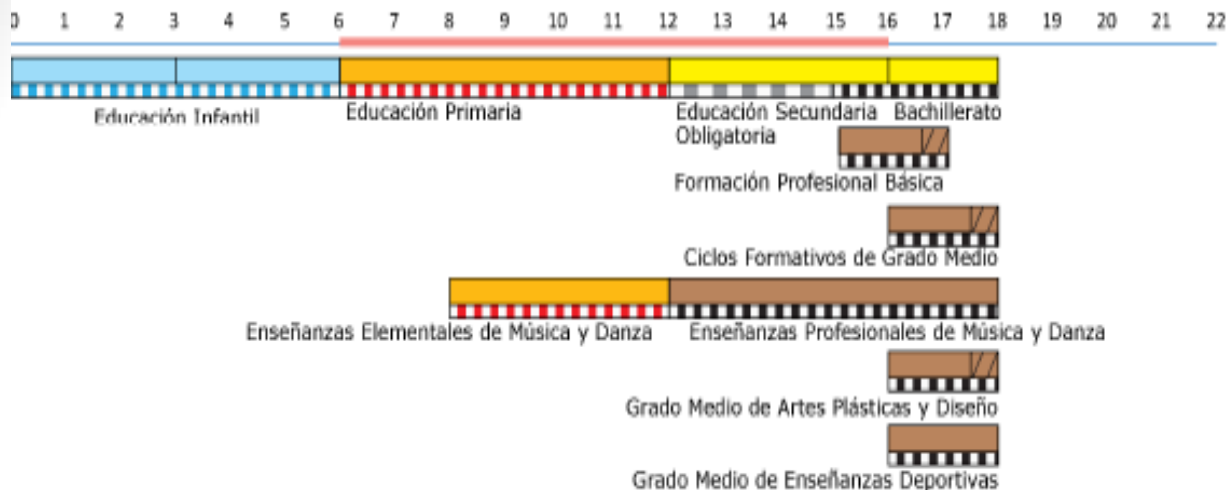

# SPANISH EDUCATIONAL SYSTEM

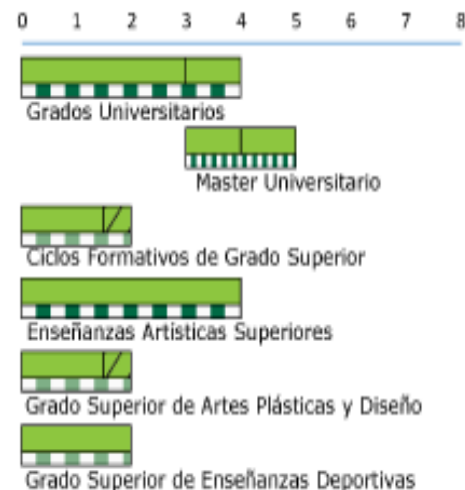

# Spain

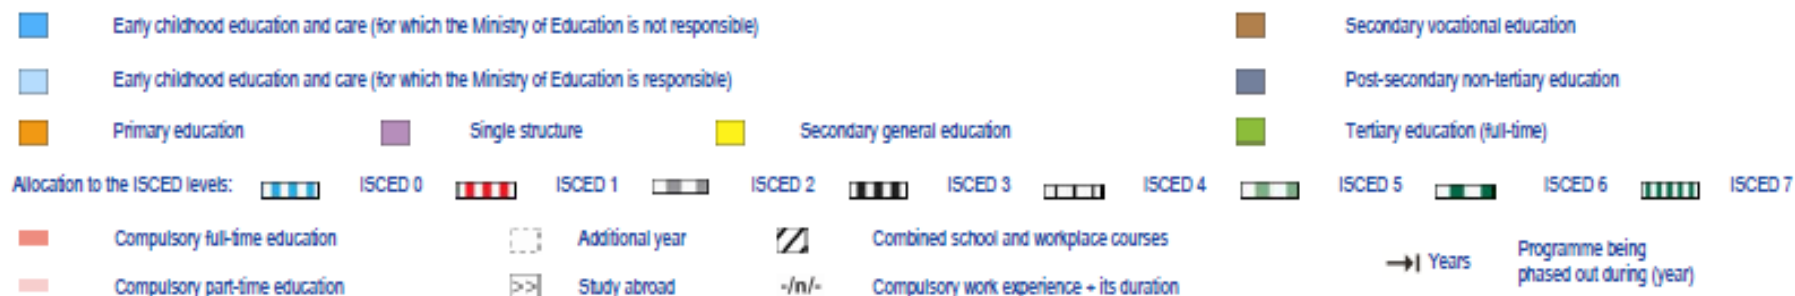

## Age of students

## Programme duration (years)

Note: *Gimnazija* might cover primary education programme (ISCED 1) and basic educational programmes.

# Our School

**Located on street Camino Viejo de Vélez, in the neighbourhood of El Palo in Málaga, our institution was created in 1979.**

**IES El Palo currently assists in the learning of more than eight hundred students, with sixty-four professors belonging to one of the seventeen seminars that make up the Pedagogical Coordination Task Force.**

**One aspect that characterizes the teaching in our center is the contact that IES El Palo maintains with schools from other countries being involved in several exchanges programs and european projects**

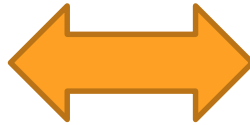

# The educational levels offered by our center include:

- ❑ **Secondary Education,**
- ❑ **Baccalaureate,**
- ❑ **Adult education and**
- ❑ **Vocational training.**

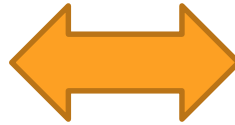

# ***OUR VOCATIONAL TRAINING STUDIES***

**Basic  
Professional Studies**

**Hairdresser and  
Beautician Assistant**

**MIDDLE GRADE OF  
VOCATIONAL  
TRAINING**

**Hairdressing Technician  
Beautician Technician**

**UPPER GRADE OF  
VOCATIONAL  
TRAINING**

**Integral Aesthetic and  
Welfare  
Personal and Corporate  
Consultancy**

# BASIC PROFESSIONAL STUDIES

The objectives of these programmes are:

- **To achieve professional competences of the occupational standards of level 1 in the National Catalogue of Occupational Standards.**
- **Students can insert satisfactorily both in society and in the labour market and enhance their key competences to continue their studies in different paths.**

# MIDDLE AND UPPER GRADE OF VOCATIONAL TRAINING

**Both levels, middle and upper, are organised in professional modules in order to forge a close link with the production sector and a high response capacity facing technological, economic and social changes.**

**These modules are conceived as instruments for developing the professional skills required at work.**

# MIDDLE AND UPPER GRADE OF VOCATIONAL TRAINING

**They include work based learning which is mandatory for all the students.**

**It is carried out in the company and intends to apply the knowledge learned in educational establishments to real work situations and to know how a company really works.**

**The length is of 2000 hours, divided into two academic years. Students successfully completing middle and upper level specific vocational schooling are respectively awarded the Technician and Higher Technician Diplomas.**

# MIDDLE AND UPPER GRADE OF VOCATIONAL TRAINING

**Vocational training length is of 2000 hours,  
divided into two academic years.**

**Students successfully completing middle and  
upper level specific vocational schooling are  
respectively awarded with the Technician and  
Higher Technician Diplomas.**
